

Title: **Operator - Process - Alder Flats Plant**  
Employment Type: Full Time  
Location: Alder Flats, Alberta  
Reports To: Plant Manager  
Start Date: Immediate  
Closing Date: April 23, 2024

Spartan is a growing, fast paced energy company whose Environment, Social and Governance (ESG) focused culture is centered on generating sustainable Free Funds Flow through responsible oil and gas exploration and development. With a dominant position in the Deep Basin, Spartan's portfolio yields some of Canada's highest-quality production and development opportunities.

### **Operator - Process - Alder Flats Plant**

Spartan Delta Corp. is seeking an individual to fulfill the responsibilities of an **Operator - Process - Alder Flats Plant** in the Plant Operations team. This role is responsible for performing daily operational checks to ensure Spartan's equipment is operating a maximum efficiency with minimum down time in a safe and effective manner.

### **What You Will Do**

- Keep shift logs up to date and review shift logs at the beginning of every shift
- Understand the permitting system and isolation procedures for equipment
- Maintain all lubrication systems ensuring correct lubricants are used
- Conduct plant site specific orientations as needed
- Understand the general principles of operating a cryogenic plant
- Maintain strong housekeeping practices to ensure a clean work area
- Assist in writing site specific operating procedures and start up procedures
- Participate in frequent Hazard and Risk Assessments to identify and mitigate risks in a dynamic operational environment
- Attend and participate in Health and Safety Meetings

### **Who You Are**

- In-depth knowledge of production facilities including all areas of plant operations and storage facilities
- Minimum 2 years of oil and gas operating experience
- Third Class Steam Certification
- Maintain all safety tickets and certifications
- SCADA and production entry experience
- Ability to work independently and within a team environment
- Strong computer skills including Excel and Office Suite
- Excellent troubleshooting and problem-solving skills
- Highly organized with ability to manage demanding workload

This position will be based out of Alder Flats, working 7 days on/7 days off (12-hour days, day/night rotation).

**To Apply**
